**The total number of CP refers to the completion of the single MA degree programme (90 CP through modules plus 30 CP through the Master's thesis totalling 120 CP).

If the programme begins in the winter semester, the module AM1 must be taken in the first semester, AM2 in the first and second semester. The completion of the other modules does not have to follow a chronological order.

It should be noted that the supplementary module 1 "Field Research Practice" runs over the course of two semesters.

In the one-subject Master's in Social and Cultural Anthropology, all advanced modules 1, 2 and 3 and two of the offered specialization modules 1 to 3 are to be attended, as well as one module of the supplementary modules 1 to 3 plus modules covering 12 CP in the supplementary modules 4 to 8.
